

REMARKS

The application has been amended and is believed to be in condition for allowance.

Upon review of the last amendment, it was noted that claims 6, 9 and 16 required amendment to correct a recited range.

Support for this correction can be found on specification page 7, lines 12-14.

It was also noted that this passage of the specification included an obvious error concerning the more preferred range. This paragraph was therefore also amended to recite "between 40 and 100 watts". Support for this amendment can be found on page 5, lines 13-14 of the priority document, as well as from the originally filed claims of this application, e.g., claim 6.

In view of the above, it is believed that there is clear support in the originally filed application for these amendments.

Allowance of all the pending claims is respectfully requested.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any
